ABOUT ME

a Passionate software Engineer who builds beautiful, fast, Usable, Secured, Available, Scalable and Reliable websites and Systems. I specialized in full-stack development starting from Requirement Gathering To Maintenance, blending API, Database and UI/UX design with functionality to create high-performing digital experiences and Machine Learning Researcher. My Journey in technology has been driven by a desire to learn, grow and improve.

EDUCATION AND TRAINING

Bachelor's of Science in Software Engineering

Injibara University [20/06/2021 – 26/06/2026]

City: injibara | **Country:** Ethiopia | **Website:** <https://www.inu.edu.et/> | **Field(s) of study:** Information and Communication Technologies: • Software and applications development and analysis | **Level in EQF:** EQF level 6

WORK EXPERIENCE

TimeWize Systems – Addis Ababa, Ethiopia

Software developer

[01/03/2025 – 30/06/2025]

- Designed and implemented RESTful APIs using NestJS, following modular architecture for scalability and maintainability.
- Developed and maintained modules for core business domains: Account, Agent, Auth, File, Incident, Report, Structure, and Telegram integration.
- Implemented authentication and authorization mechanisms, including JWT and custom guards/interceptors.
- Built reusable DTOs, services, and controllers for CRUD operations and business logic.
- Developed a modern, responsive web application using Next.js and React.
- Built reusable UI components (e.g., Auth, Dashboard, Table, Navbar, ThemeSwitcher) with TypeScript and Tailwind CSS.
- Implemented authentication flows, user registration, and secure session management.
- Integrated RESTful APIs for data fetching, state management, and real-time updates.

Community Fortune – United Kingdom

Software developer

[15/11/2025 – 30/05/2026]

- Designed and implemented RESTful APIs for core business domains including user management, authentication, competitions, payments, analytics, and legal documents using Node.js and Express.
- Developed robust authentication and authorization systems, including JWT-based sessions, role-based access control (RBAC), and security features such as rate limiting, CSRF protection, and two-factor authentication.
- Engineered modular backend services for handling competitions, instant win games, referrals, wallet transactions, and subscription tiers, ensuring scalability and maintainability.
- Integrated third-party services such as Cloudinary for file uploads, hCaptcha for bot prevention, and Stripe for payment processing.
- Built and maintained admin and superadmin modules for advanced user, content, and settings management, including activity logging and dashboard analytics.
- Automated database schema management and migrations for tables like users, wallets, subscriptions, and contact messages, using custom scripts and SQL.
- Implemented comprehensive validation and error handling using Joi and Zod schemas for API request payloads and business logic.

 **Technosophia IT Solutions** – Addis ababa , Ethiopia

Web developer

[19/03/2025 – 30/05/2025]

- Designed and implemented responsive user interfaces using React.js, including dashboards, login/register forms, and profile management pages.
- Developed reusable components for daily, weekly, monthly, and yearly reports with dynamic data visualization.
- Integrated protected routes and user authentication flows.
- Implemented inactivity timer and session management for enhanced security.
- Styled application using CSS modules and ensured cross-browser compatibility.
- Consumed RESTful APIs for CRUD operations on offices, services, and user accounts.

SKILLS

JavaScript Framework / Machine Learning (AI, DL, CNN) / Java (computer programming) / Programming (PHP Python JavaScript HTML5 CSS3 SCSSSASSLess) / Microsoft Office / Microsoft Word / Microsoft Excel / Microsoft Powerpoint / WhatsApp / Gmail / Google Drive / Motivated / Good listener and communicator / Team-work oriented

CERTIFICATIONS

[injibara university Ethics Monitoring Executive, 01/10/2025]

Certificate of Appreciation The Certificate of Appreciation Received from injibara university Ethics Monitoring Executive

Mode of learning: Presential
